

Coupler

HDPE duct

Group: Duct coupler

Date: 16-04-2024

Duct couplers offer solutions for connecting PE ducts, carrying communication lines. The mechanical compression fittings are designed to withstand working pressures of up to 16bar. The duct coupler range comprises different diameters for straight couplers (joining ducts), straight couplers bored (introduction of ducts in chambers) and end couplers (terminating a duct).

Product characteristics

Fixation	Compress
Way of locking	Screw
Material connector	Plastic
Re-usable	Yes

Application

Application area	OSP connectors, end caps, gas block
------------------	-------------------------------------

Logistical specifications

Unit	piece(s)
------	----------

Products

Article number	Type	Tube outer diameter 1	Tube outer diameter 2	Length	Outer diameter
401201	Straight	32	32	145 mm	64 mm
401202	Straight	40	40	177 mm	82 mm
401214	Straight	32	32	145 mm	64 mm
401217	Straight	50	50	201 mm	96 mm
401239	End	50		121 mm	96 mm
