

## Duct PVC - 25 x 1.5 mm

ACE-DS-613511-v01-e

datum : 12-05-2021

### Product

PVC-U has very good chemical and electrical properties. PVC-U has been proven physiologically harmless.

Within the OWST application, the PVC pipe is used as a storage housing for the tracer and the cable.

### Functionality

The PVC tube is used in the roll-out of fiberglass in high-rise buildings and is (with certain length) part of the OWST kit. For further explanation, see <https://www.tkf-telecom.eu/613506.html>.

### Specification

Material		PVC-U – fully recyclable
Color		Fully colored – grey (RAL 7011)
Diameter	[mm]	25
Wall thickness	[mm]	1.5
Classification		PN10

### Logistical information

The tube is delivered in length pieces of 1 meter.
